LifeLine-Serie Aurora

Light protection goggles with particularly comfortable wearing properties

Light protection goggles with particularly comfortable wearing properties

Modern, slightly larger lens shape than traditional sunglasses for optimal protection without peripheral vision restrictions

Good finish in the forehead and temple area thanks to the curved frame shape

Low weight due to plastic lenses

Edge/comfort filter (optionally with an additional 60% POL1 or 80% POL3 effect) for a wide range of eye diseases for the best light protection, contrast enhancement and prevention of damage to the retina

B-AR (hard coat and back surface anti-reflective coating)

Can also be glazed with prescription lenses (curve 8).

Lifeline-Serie Alex, Braun

The sporty edge/comfort filter glasses

The sporty edge/comfort filter glasses combine excellent wearing properties and modern design.

Size and shape for an unrestricted field of vision with the greatest possible protection against light and wind

Low weight due to plastic lenses

Optimum anatomical adaptation to the respective head shape

Edge/comfort filter (optionally with an additional 60% POL1 or 80% POL3 effect) for a wide range of eye diseases for the best light protection, contrast enhancement and prevention of damage to the retina

B-AR (hard coat and back surface ET)

Lifeline-Serie Alex, Transparent-Grau

The sporty edge/comfort filter glasses

The sporty edge/comfort filter glasses combine excellent wearing properties and modern design.

Size and shape for an unrestricted field of vision with the greatest possible protection against light and wind

Low weight due to plastic lenses

Optimum anatomical adaptation to the respective head shape

Edge/comfort filter (optionally with an additional 60% POL1 or 80% POL3 effect) for a wide range of eye diseases for the best light protection, contrast enhancement and prevention of damage to the retina

B-AR (hard coat and back surface ET)

LifeLine-Serie LUCA

Light protection goggles with a large field of vision due to the curved frame shape

Large field of view due to curved frame shape

Perfect protection against lateral incidence of light thanks to a good fit

Rubberised temple inserts for a better fit

Low weight due to plastic lenses

Edge/comfort filter (optionally with an additional 60% POL1 or 80% POL3 effect) for a wide range of eye diseases for the best light protection, contrast enhancement and prevention of damage to the retina

B-AR (hard coat and back surface anti-reflective coating)

Can also be glazed with prescription lenses (curve 7).

LifeLine-MATTEO Series

Light protection goggles with metal brackets for optimal adjustment

Large field of view

Fashionable plastic frame with distinctive lens shape

Openwork metal temple with plastic temple tips

Optimally adaptable

Low weight due to plastic lenses

Edge/comfort filter (optionally with an additional 60% POL1 or 80% POL3 effect) for a wide range of eye diseases for the best light protection, contrast enhancement and prevention of damage to the retina

B-AR (hard coat and back surface anti-reflective coating)

Can also be glazed with corrective lenses (curve 6).

LIFE hazelnut safety glasses

Sporty light protection glasses with side protection and shatterproof lenses

- Large field of view thanks to the curved frame shape
- Perfect protection against lateral incidence of light through side protection parts and from above through pronounced upper edge, side protection parts in glass color, optionally in other colors
- Rubberised temple inserts for a better fit
- Low weight thanks to polycarbonate lenses
- Edge/comfort filter (optionally with an additional 60% POL1 effect) for a wide variety of eye diseases for the best light protection, contrast enhancement and prevention of damage to the retina
- Includes B-AR (hard coat and back face ET)
- Can also be glazed with corrective lenses (curve 6).
- Prism-compensated glasses for an optimized visual impression
- Ideal for sports and leisure, as shatterproof lenses comply with DIN "Ball Drop Test"
- Including case

Safety goggles LIFE Black

Sporty light protection glasses with side protection and shatterproof lenses

- Large field of view thanks to the curved frame shape
- Perfect protection against lateral incidence of light through side protection parts and from above through pronounced upper edge, side protection parts in glass color, optionally in other colors
- Rubberised temple inserts for a better fit
- Low weight thanks to polycarbonate lenses
- Edge/comfort filter (optionally with additional POL1/POL3 effect) for a wide variety of eye diseases for the best light protection, contrast enhancement and prevention of damage to the retina
- Includes B-AR (hard coat and back face ET)
- Can also be glazed with corrective lenses (curve 6).
- Prism-compensated glasses for an optimized visual impression
- Ideal for sports and leisure, as shatterproof lenses comply with DIN "Ball Drop Test"
- Including case

Safety goggles LIFE migraine

Sporty sun protection glasses with side protection

The two migraine filters from Schweizer - MIGRÄNE-Comfort 22 and MIGRÄNE-Comfort 37 - offer two light tints with a slightly stronger light attenuation in the wavelength range 480 to 520 nm. This can reduce exposure to screen light and fluorescent tube light.

Large field of view thanks to the curved frame shape

Perfect protection against lateral incidence of light

Side protection parts and from above due to the pronounced upper edge, side protection parts in glass color, optionally in other colors

Rubberised temple inserts for a better fit

Inklusive AR+

Prism-compensated glasses for an optimized visual impression

Including case

LifeLine Elisa

Large field of view thanks to the curved frame shape

Perfect protection against lateral incidence of light thanks to wide temples

Low weight due to plastic lenses

Edge/comfort filter (optional with additional 65% POL1 or 85% POL3 effect) with different Eye diseases for the best light protection, contrast enhancement and prevention of retinal damage

Includes B-AR (hard coat and back face ET)

Can also be glazed with corrective lenses (curve 6).

frame material:

plastic

frame colour:

hazelnut

Glass material:

Polycarbonate

Compensation:

B-AR (hard layer and back surface anti-reflective coating)

Edge filter:

all edge and comfort filters possible, optionally with additional 65% or 85% polarization possible
