AMD-Comfort Cover

AMD-Comfort Cover

AMD-Comfort cover glasses to wear over the normal correction glasses. Significant improvement and more visual comfort for AMD patients. The best possible protection of the eyes against aggressive UV radiation thanks to a special AMD filter while at the same time reducing sensitivity to bright daylight and sunlight. Due to the special surface design of the lenses, additional retinal magnification including the peripheral retinal areas.

Magnification 4% or 6%

Side protection to minimize glare

Side windows with matching filters for an unrestricted field of vision

Optionally with 60% POL effect for best light protection and contrast enhancement

Incl. AR+ (Super-ET + hard layer + lotus)

3 frame/lens sizes

Silicone insert in the end of the temple

Including case

CAT-Comfort-Cover

CATARACT-Comfort cover glasses to wear over the normal correction glasses

CATARACT-Comfort cover glasses to wear over the normal correction glasses. Special filter combinations for cataracts offer visual comfort through an increase in contrast and a defined reduction in glare indoors and outdoors

- Side protection to minimize glare

- Side windows with matching filters for an unrestricted field of vision

- Optional for indoor and outdoor activities

- Incl. AR+ (Super-ET + hard layer + lotus)

- 3 frame/lens sizes

- Silicone insert in the end of the temple

- Including case

CATARACT-COMFORT Filter-Cover 2

These CATARACT-Comfort translation glasses are worn over normal correction glasses and are mainly suitable for outdoor use.

- Maximum protection against light and wind

- Side protection to minimize glare

- Side windows are semi-transparent to match the frame color for an unrestricted field of vision

- Low weight due to plastic lenses edge/comfort filter with different Eye diseases for the best light protection, contrast enhancement and prevention of retinal damage

- Distinctive frame shape in 2 lens sizes

- Includes B-AR (hard coat and back face ET)

CATARACT-COMFORT Filter-Cover 3

These CATARACT-Comfort translation glasses are worn over normal correction glasses and are mainly suitable for outdoor use.

- Maximum protection against light and wind

- Side protection to minimize glare

- Side windows are semi-transparent to match the frame color for an unrestricted field of vision

- Low weight due to plastic lenses edge/comfort filter with different Eye diseases for the best light protection, contrast enhancement and prevention of retinal damage

- Distinctive frame shape in 2 lens sizes

- Includes B-AR (hard coat and back face ET)

LifeLine series FILTER COVER MIGRAINE comfort

These comfort filter glasses are worn over normal correction glasses

The two migraine filters from Schweizer - MIGRÄNE-Comfort 22 and MIGRÄNE-Comfort 37 - offer two light tints with a slightly stronger light attenuation in the wavelength range 480 to 520 nm. This can reduce exposure to screen light and fluorescent tube light.

These comfort filter glasses are worn over normal prescription glasses and are mainly suitable for outdoor use.

Maximum protection against light and wind

Side protection to minimize glare

Side windows with matching filters for an unrestricted field of vision

Low weight: Polyamide frame with plastic lenses

3 frame/lens sizes

Also available in variants with POL1 / POL3

CR39 mit AR+

LifeLine Filter-Cover 2 Migräne-Comfort

These comfort filter glasses are worn over normal prescription glasses

The two migraine filters from Schweizer - MIGRÄNE-Comfort 22 and MIGRÄNE-Comfort 37 - offer two light tints with a slightly stronger light attenuation in the wavelength range 480 to 520 nm. This can reduce exposure to screen light and fluorescent tube light.

MIGRAINE-Comfort 22: suitable for driving and driving at night, with POL1 only suitable for driving
MIGRAINE-Comfort 37: suitable for driving, with POL1 or POL3 not suitable for driving

These comfort filter glasses are worn over the normal corrective glasses and are mainly for the
Suitable for outdoor use.

Maximum protection against light and wind

Side protection to minimize glare

Side windows with matching filter for a
unrestricted field of view

Lightweight: Polyamide frame with
plastic glasses

2 frame/lens sizes

CR39 mit AR+

LifeLine Filter-Cover 3 Migräne-Comfort

These comfort filter glasses are worn over normal prescription glasses

The two migraine filters from Schweizer - MIGRÄNE-Comfort 22 and MIGRÄNE-Comfort 37 - offer two light tints with a slightly stronger light attenuation in the wavelength range 480 to 520 nm. This can reduce exposure to screen light and fluorescent tube light.

MIGRAINE-Comfort 22: suitable for driving and driving at night, with POL1 only suitable for driving
MIGRAINE-Comfort 37: suitable for driving, with POL1 or POL3 not suitable for driving

These comfort filter glasses are worn over the normal corrective glasses and are mainly for the
Suitable for outdoor use.
