Clip CATARACT-Comfort Indoor

Edge filter clip borderless with special filter, with AR+

Thanks to the perfect combination of a medi-lens special filter with a precisely defined gradient tint , this unique medi-lens special lens offers optimal protection and maximum visual comfort for cataracts

Special filter combination for maximum contrast and visual comfort

Increased contrast, less glare, more visual comfort

Preventive protection of the retina from aggressive UV radiation

For pre- and postoperative use

Clip CATARACT-Comfort Outdoor

Edge filter clip borderless with special filter, with AR+

The special filter combination for cataracts offers visual comfort through an increase in contrast and a defined reduction in glare indoors and outdoors.

The combination of this filter with a gradient tint and a corrective lens has a positive effect on the visual performance of cataract sufferers, both in pre- and postoperative use.

Special filter combination for maximum contrast and visual comfort

Increased contrast, less glare, more visual comfort

Preventive protection of the retina from aggressive UV radiation

For pre- and postoperative use

Edge and comfort filter clips medi-lens borderless

Contrast-enhancing filters with a firmly defined edge or comfort filters, also available with polarization

Flip-up clips to clip onto frame, size 128/48 made of CR39, rimless.

Ideal for extensive test wear on customer glasses.

Contrast-enhancing filters with a firmly defined edge

Filter clip can be attached to the socket and folded up

Including case

Edge filter clip with protective acetate rim

Contrast-enhancing filters with a firmly defined edge or comfort filters, also available with polarization

Contrast-enhancing filters with a firmly defined edge

Filter clip can be attached to the socket and folded up

Including case

migraine clip

The two migraine filters from Schweizer - MIGRÄNE-Comfort 22 and MIGRÄNE-Comfort 37 - offer two light tints with a slightly stronger light attenuation in the wavelength range 480 to 520 nm. This can reduce exposure to screen light and fluorescent tube light.

Snap-on flip-up clips, size 128/48 made of CR39 with AR+, rimless.

Ideal for extensive test wear on customer glasses.

Filter clip can be attached to the socket and folded up

Including case

Migraine clip with protective acetate edge

The two migraine filters from Schweizer - MIGRÄNE-Comfort 22 and MIGRÄNE-Comfort 37 - offer two light tints with a slightly stronger light attenuation in the wavelength range 480 to 520 nm. This can reduce exposure to screen light and fluorescent tube light.

Snap-on flip-up clips, size 123/40 in CR39 with AR+, with protective acetate rim.

Ideal for extensive test wear on customer glasses.

Filter clip can be attached to the socket and folded up

Including case
